## 8. Dreaming Dreams

*This Week's Lesson Summary:*

In the Bible, dreams are a primary way God communicated with people—from patriarchs and disciples, to foreign kings and evil rulers. In dreams God would warn, direct, and help people in their life circumstances. He still is doing that today. This week we taught children dreams are important, how to distinguish between a normal dream and one that comes from God, and the basics of interpreting the meanings of dreams.

**PowerVerse:** (*Memorize this verse with your child.*)

He speaks in dreams, in visions of the night when deep sleep falls on people as they lie in bed. Job 33:15<sup>NLT</sup>

**Watch Video: Daniel Interprets The King's Dream**

**Type in your browser:** [https://youtu.be/ot\\_3OHvAMPs](https://youtu.be/ot_3OHvAMPs)

God speaks to all of us through dreams. Our challenge is to determine which dreams are from Him, and what message is He trying to give us in our dreams.

**Pray: Acts 2:17 Over Your Children**

Place their names in the blanks.

*Father, I ask that You speak to my child through dreams and visions. Teach us Your ways, and teach us to know which ones are from You and are important. Create a hunger and curiosity in \_\_\_\_\_ to want to know what You are saying to him/her in dreams.*

**Additional items to post in your group:**

- \*Post Photos and short videos of your services
- \*Announcements of upcoming events
- \*Testimonies of how God touched the children.

### A Parent's Food for Thought:

Make it a habit to ask your children first thing in the morning around the breakfast table if they had any dreams the night before. Encourage your child to write them down in a book or tablet. Discuss what the meanings might be. If you need help, there are many videos and books that can be of assistance online, or ask your children's pastor. Take your child's dreams seriously, because it is common for God to have a message for the whole family through the dreams of one child. When the child is made aware of their importance at young ages, it impacts him through his life. Go back periodically to the dreams written down and read them with your child again. You will be surprised how many come to pass.
